NEW BUILD

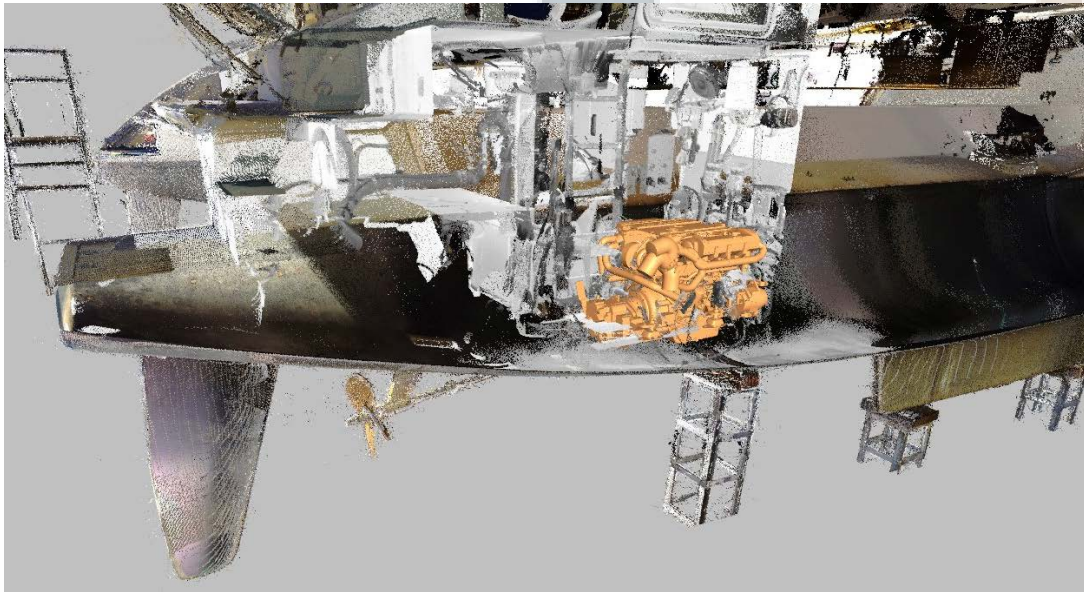

Your partner for your new lifestyle

- Ⓢ Bringing your Vision from the sketchbook to the sea.
- Ⓢ 1st Step: Specification preparation – understanding Client's Vision for the Yacht.
- Ⓢ 2nd step: Preliminary design, machinery selection & 3D modelling – a fully detailed 3D rendering of Client's Vision.
- Ⓢ 3rd step: Production design – reflecting the Vision in construction drawings & material list.
- Ⓢ 4th step: Construction supervision – monitor the realization of the Vision to meet the highest quality standards.
- Ⓢ 5th step: Delivery – no longer just a vision, the Yacht is subjected to trials, ensuring the proper vessel & system operation.

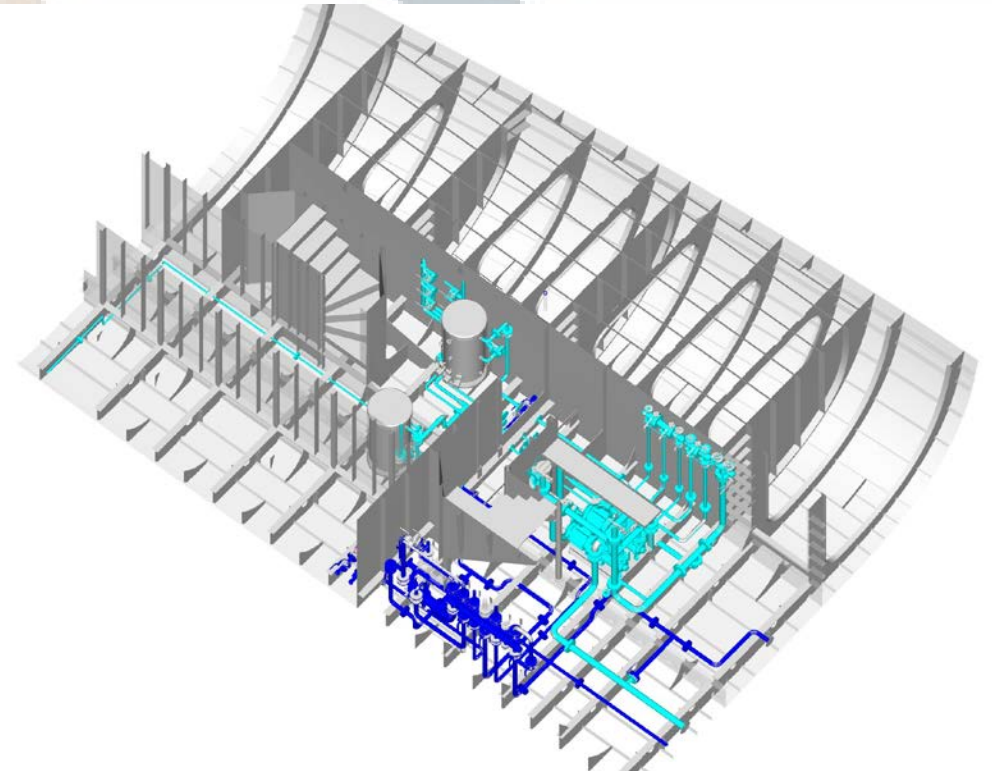

REFIT

A breath of fresh air to your adventure

Ⓜ Machinery and outfittings modifications.

Engine refit sailing yacht

Piping system for 60m yacht

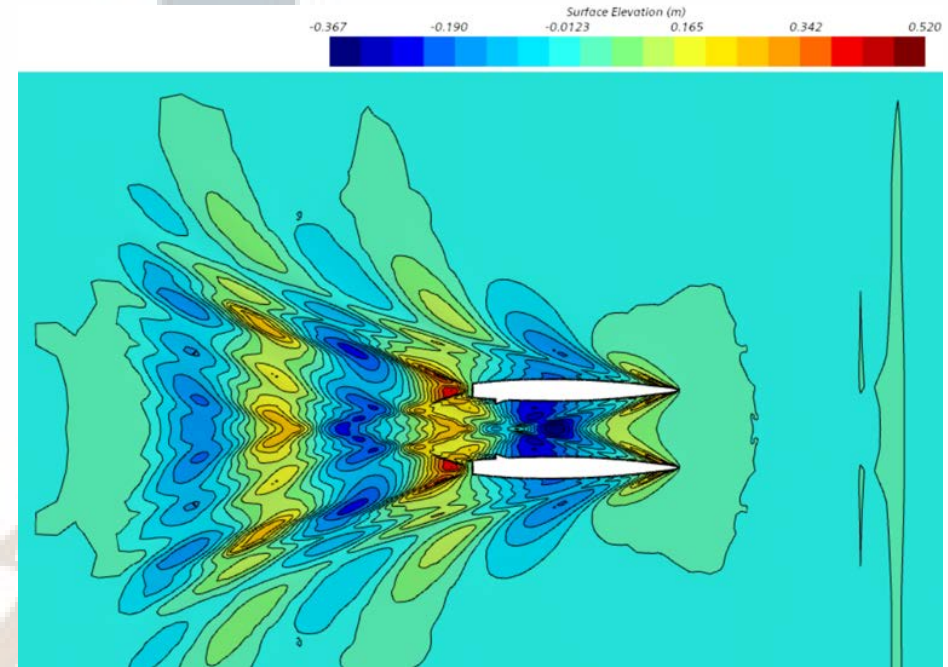

REFIT

A breath of fresh air to your adventure

- ④ Performance evaluation.
